

## IBAFDA

# Technical Data Sheet

### Description

IBAFDA (...F) are formulated with special raw materials developed for indirect food contact. These products can be produced for all series in accordance with Food and Drug Regulation, Title 21, Section 175.300; Resinous and Polymeric Coatings.

### Characteristics

Suitable for indirect food contact  
Available for all series  
Less waste and pollution to the environment

### Applications

White goods  
French presses  
Domestic appliances

### Product Properties

<b>UV Resistance</b>	Check for TDS for the specific series.
<b>Colour</b>	All colours
<b>Surface</b>	Gloss GLF – Semigloss HRF – Semimatt CSF – Matt CMF – Wrinkle WRF – Structure STF - SPF
<b>Specific gravity</b>	Check for TDS for the specific series.
<b>Shelf Life</b>	Check for TDS for the specific series.

### Application Data

<b>Application</b>	Check for TDS for the specific series.
<b>Curing</b>	Check for TDS for the specific series.
<b>Film Thickness</b>	Check for TDS for the specific series.

### Coating Properties

Check TDS for the specific series.

### Application Guide

IBAFDA does not require a special application. Check TDS for the specific series.

# IBAFDA

## Care and Maintenance

**IBAFDA** should be regularly washed with warm water and mild liquid detergent, followed by a fresh water rinse to maintain the attractive appearance of the powder cured film.

The use of abrasive cleaners is not recommended, nor is the use of active organic solvents.

## Health and Safety

The SDS is an integral part of using this product as it contains information on the potential health effect of exposure, personal protective equipment needed. It is recommended to contact to Sales and Customer Service Offices for further information.

## Precautions and Limitations

As a result of possible wide application variations and stoving conditions, **IBAFDA** may show variation, between İBA Kimya Powder Coatings prepared samples and production applied material. Therefore, it is the applicator and/or their customer's responsibility to ensure the product conforms to their requirements.

For optimum performance ensures recommended dry film thickness is obtained.

Not suitable for direct food contact.

## Transport and Storage

<b>Packaging</b>	15-20-25 kgs. Heavy polyethylene bag in a corrugated carton
<b>Shipment</b>	Not dangerous goods. No special transport requirements.
<b>Storage Conditions</b>	Storage temperatures should be kept below 30°C and 50% relative humidity. Powder should be stored in closed containers.

*DISCLAIMER: All the information given in this Data Sheet is the result of our research work experience. It is given in good faith and with every belief in its accuracy but cannot be considered as a formal warranty. In accordance with İBA KİMYA, policy of product development, this specification is subject to change without notice.*
