

## IBAFDA

# Technical Data Sheet

### Description

IBAFDA (...F) are formulated with special raw materials developed for indirect food contact. These products can be produced for all series in accordance with Food and Drug Regulation, Title 21, Section 175.300; Resinous and Polymeric Coatings.

### Characteristics

Suitable for indirect food contact  
Available for all series  
Less waste and pollution to the environment

### Applications

White goods  
French presses  
Domestic appliances

### Product Properties

<b>UV Resistance</b>	Check for TDS for the specific series.
<b>Colour</b>	All colours
<b>Surface</b>	Gloss GLF – Semigloss HRF – Semimatt CSF – Matt CMF – Wrinkle WRF – Structure STF - SPF
<b>Specific gravity</b>	Check for TDS for the specific series.
<b>Shelf Life</b>	Check for TDS for the specific series.

### Application Data

<b>Application</b>	Check for TDS for the specific series.
<b>Curing</b>	Check for TDS for the specific series.
<b>Film Thickness</b>	Check for TDS for the specific series.

### Coating Properties

Check TDS for the specific series.

### Application Guide

IBAFDA does not require a special application. Check TDS for the specific series.

## IBAFDA

### Care and Maintenance

**IBAFDA** should be regularly washed with warm water and mild liquid detergent, followed by a fresh water rinse to maintain the attractive appearance of the powder cured film.

The use of abrasive cleaners is not recommended, nor is the use of active organic solvents.

### Health and Safety

The SDS is an integral part of using this product as it contains information on the potential health effect of exposure, personal protective equipment needed. It is recommended to contact to Sales and Customer Service Offices for further information.

### Precautions and Limitations

As a result of possible wide application variations and stoving conditions, **IBAFDA** may show variation, between İBA Kimya Powder Coatings prepared samples and production applied material. Therefore, it is the applicator and/or their customer's responsibility to ensure the product conforms to their requirements.

For optimum performance ensures recommended dry film thickness is obtained.

Not suitable for direct food contact.

### Transport and Storage

<b>Packaging</b>	15-20-25 kgs. Heavy polyethylene bag in a corrugated carton
<b>Shipment</b>	Not dangerous goods. No special transport requirements.
<b>Storage Conditions</b>	Storage temperatures should be kept below 30°C and 50% relative humidity. Powder should be stored in closed containers.

*DISCLAIMER: All the information provided in this data sheet depends on our knowledge and experience up to date and may be subject to revision as new technology and experience evolve. Since the conditions of application may vary depending on the substrate, physical conditions and other variables, users should conduct necessary tests to determine the conformity of the product for its intended use. We do not accept liability since the application, use and processing of the products take place beyond our control and supervision. Moreover, our liability for breach of warranty is exclusively limited to replacement of the product or refund of its price and we are not liable for incidental, indirect or consequential damages under any circumstances.*
